Hi Rob,

This is a SCRA table, which is a table Jennifer said not to download. There was a reason why, but I can't remember why. Jennifer can expand on the reasoning.

Arron,

It's a pretty big file and I'm having trouble with my connection to my email server (I keep losing my connection before the send action completes). But it's on the LWG site under "files/data/round 2 data" and

it's called "R2aGrb_SCRA_TPHsHerbPestSVOCVOCs_20050623.xls"

Click on the link called "2005-06-23 - R2A SCRA_TPHsHerbPestSVOCVOCs"
